

MEMORANDUM

TO: Bola Akande, City Administrator
FROM: Gina Jarvis, Finance Director
DATE: October 18, 2012
SUBJECT: September 2012 Financial Status Report

INTRODUCTION:

The purpose of this memo is to present a detailed analysis of the City’s financial status as of September 30, 2012. The month of September completes the 3rd quarter and we should be at approximately 75% of budget. As you will see, we are very close to this mark in many areas which means that we need to keep a close eye on the budget as we finish out the year. We would like to see the year finish with expenditure savings that will help in building reserves. In October/November, we will be presenting the year end budget amendment for 2012 to adjust some expenditure line items in the departments as well as some offsetting revenue line items. Overall, city revenues and expenditures are on target with the 2012 budget. If you have questions or need any additional information, please let me know.

Taxes:

Ad valorem tax revenue is posted to the General Fund in November. Year to date sales tax revenue is on pace with 2011 and is tracking higher than the 2012 budget through September. Utility tax revenue continues to improve as expected and is now almost on target with the 2012 budget at 74.47%. It appears that utility tax revenue related to gas will come in significantly less than 2011 due to the mild winter while utility tax revenue related to electric has increased over the summer months as a result of the extreme summer heat we experienced. Other tax revenue includes the road & bridge tax, financial institution tax, railroad & utility tax, state motor fuel tax and cigarette tax. These taxes combined are coming in below budget at 62.15%.

Licenses and Permits:

Business license revenue is right on target with last year and the 2012 budget. Building permits are still down compared to the 2012 budget. We anticipated a hotel and new commercial building to break ground in 2012, but it looks as though it will be next year before this happens. Other license and permit revenue includes liquor licenses, automobile licenses, occupancy permits, planning/zoning applications, electrical permits and plumbing permits. These revenue sources are tracking higher than the 2012 Budget at 88.63%.

Fines and Forfeitures:

Fines and forfeitures continue to be coming in less than anticipated in the 2012 Budget at only 63.82% and are still below 2011 levels. During the month of April, we were able to determine that the number of tickets issued through March was less than the prior year which would explain the revenue decline during the first few months of the year. A 2nd traffic officer started in May and the number of tickets issued has been increasing since that time. We are also now starting to see the monthly revenue increase as a result of the increase in tickets issued. However, it does not appear that we will catch up with the budget by the end of the year.

Intergovernmental:

Intergovernmental revenue includes anticipated grant revenue, revenue from the library and the City of Rock Hill. In April, we made an accounting change to move reimbursements from the DEA to intergovernmental revenue. Previously this revenue was posted directly to the police department overtime account. In the overtime analysis, you will see that this accounting change resulted in an increase in police overtime which now reflects actual costs for overtime in the department. It is important to note that a portion of the overtime is funded by the DEA. Total year to date revenue is 122.83% of the 2012 budget.

Charges for Services:

Charges for services include revenue from parks and recreation, garbage and public safety services. Year to date, this revenue source is falling below 2011 and below budget at 67.25%. An analysis of this revenue shows that there is \$19,800 of golf tournament revenue in the budget that we will not receive. In addition there is a new line item for \$24,000 in property rental revenue with no actual revenue source determined. Otherwise, we anticipate the other revenue items to come in at or near the 2012 budget.

Miscellaneous:

The 2012 budget for miscellaneous revenue includes TIF reimbursements, TDD collection fees, and a litigation settlement. These revenues total \$432,000 and will not come in steadily on a monthly basis. In April, we received the 2011 TIF Reimbursement in the amount of \$357k. This amount was refunded back to the bank in September in order to call additional Brentwood Square TIF bonds as directed by the Board of Aldermen back in May, 2012.

Administration:

Administration department expenditures in 2012 will be higher than in 2011 because related Municipal Operating costs were moved to Administration in 2012. Monthly expenditures seem to be relatively stable and the department has realized some savings to offset a payout for a long term city employee that occurred in January. However, we are still slightly above the budget and will continue to monitor this department to make sure it stays on target as we finish out the year.

Police Seizure Funds:

An accounting change was made in April to create a separate division in the General Fund for budgeting and expending police seizure funds. Previously, these expenditures were posted against the seized property revenue account. This resulted in difficulty in reporting actual revenue and expenditures related to the seizure funds and these expenditures were not being properly budgeted. In the future, the police department will budget for the use of seizure funds each year during the budget process. We will be presenting a budget amendment to budget for the expenditure of seizure funds for 2012.

Overtime Analysis

Overall city overtime is at 74.23% of the 2012 budget. During May, it was determined that overtime incurred in December, 2011 was paid in January, 2012 so we should expect to see overtime run somewhat higher than budget throughout the year. This should correct itself partially in December as overtime at the end of December will be paid in January 2013. As expected, the Fire department overtime usage is higher than normal because of vacant positions that were filled in June. Fire department overtime has stabilized over the past few months as anticipated now that the new employees are on board. As noted in the Intergovernmental Revenue section, we made an accounting change in April to move reimbursements from the DEA to intergovernmental revenue. Previously this revenue was posted directly to the police department overtime account. This accounting change resulted in an increase in police overtime which now reflects actual costs for overtime in the department. As noted in the Police Department section of this report, we will be presenting a budget amendment for the Police Department to budget for this DEA overtime. It is important to note that a portion of the overtime is funded by the DEA. We have noted this below along with other grant funding we receive for overtime.

Department Overtime	2011 Actual	2012 Budget	YTD 2012 Actual	2012 % of Budget
